PROFILE

Full-stack engineer with 5+ years of production experience designing, building, and evolving scalable web applications used in high-trust environments. Deliver end-to-end features—from UI architecture to API design and data modeling—while prioritizing reliability, performance, security, and testability. Experienced collaborating across product, design, and engineering to translate ambiguous ideas into clear, testable components. Motivated by mission-driven technology and leveraging software to support the social good.

KEY TECHNOLOGIES

- **Languages & Frameworks:** Ruby on Rails, React, JavaScript (ES6+), TypeScript (working knowledge), Hotwire (Turbo/Stimulus)
- **APIs & Architecture:** RESTful APIs, MVC architecture, service objects, HTML, CSS
- **Databases:** PostgreSQL, MySQL, ActiveRecord
- **Testing:** RSpec, Minitest, Capybara
- **Tooling & Process:** Git, GitHub/GitLsb, Agile/Scrum, Jira, Notion
- **Monitoring & Observability:** Datadog, Sentry, Infra

PROFESSIONAL EXPERIENCE

Slope (Remote)

Software Developer II Aug 2022-Present

Software Developer I Sep 2020 - Aug 2022

Sep 2020 - Present

- Implemented and delivered full-stack features across multiple sprints using Ruby on Rails, Hotwire/Stimulus (Nodejs), React, and RESTful APIs
- Collaborated closely with product managers and designers to break down ambiguous requirements, scope MVPs, and estimate engineering effort
- Designed performant PostgreSQL data models and optimized complex queries, improving in-app filtering and sorting responsiveness by 80%
- Built and maintained secure backend systems supporting highly configurable workflows and sensitive data handling
- Contributed to small-to-medium sized projects independently while maintaining consistent delivery within Agile sprint cycles
- Improved platform maintainability through modular architecture, service objects, and reusable Rails components
- Contributed to robust automated unit and integration test suites (RSpec, Minitest, Capybara) to ensure stability and reduce regressions
- Participated in thoughtful PR reviews, providing constructive feedback and incorporating feedback from teammates
- Communicated work status proactively, escalated blockers early, and coordinated with cross-functional teams in a fully remote environment
- Mentored junior engineers and fostered a collaborative, inclusive team culture

CERTIFICATION

Full Stack Software Engineering & Web Development

Flatiron School, Seattle, WA, USA, 2019

EDUCATION

Bachelor of Liberal Arts *magna cum laude*

Psychology with Honors - Spanish minor

Whitman College, Walla Walla, WA, USA, 2015
